A (The piece with the logo.)

B (The piece without the logo.)

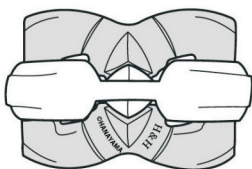

【The sole of the
"B" piece.】

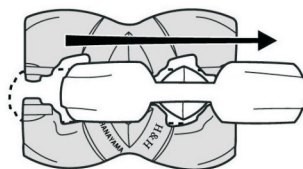

At first glance, the
soles may appear the
same, but they're not.
Please take particular
notice.

In the solution, only
the soles B3-B4 come
into play. (Please note
that the least rounded
sole is B4. So use this
as a guide.)

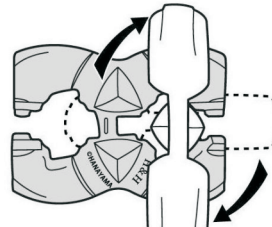

1: Starting position.

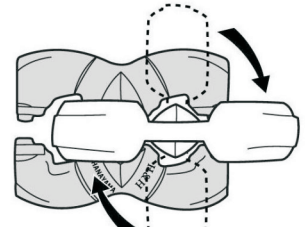

2: Slide "B" to the right.

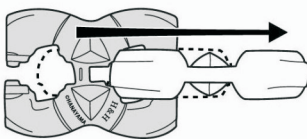

3: Rotate "B" 90 degrees clockwise.

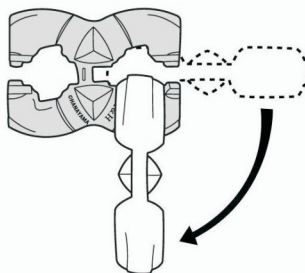

4: Rotate "B" a further 90 degrees
clockwise.

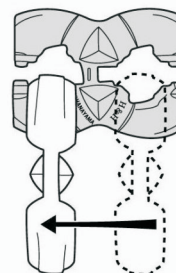

5: Slide "B" to the right.

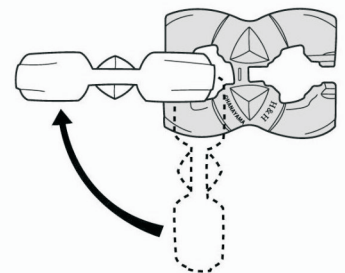

6: Rotate "B" 90 degrees clockwise.

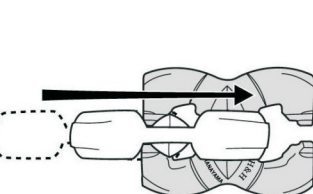

7: Slide "B" to the left side as is.

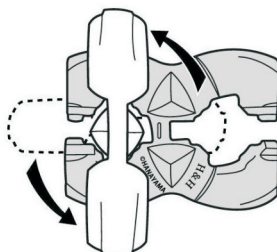

8: Rotate "B" 90 degrees clockwise.

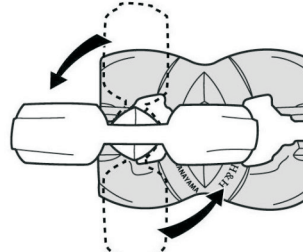

9: Slide "B" to the right.

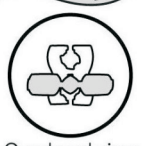

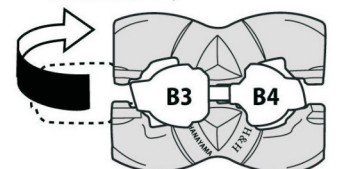

10: Rotate "B" 90 degrees
counterclockwise.

11: Rotate "B" a further 90 degrees
counterclockwise.

12: Rotate the left side of "B" 90
degrees toward the other side
of "A". (You will be able to see
the sole of "B")
